

# DRUM ALARM (HIGH) - SPECIFICATIONS

## OPTIONS

### Silencing button

power consumption: 11micro-amps standby. (standby battery life is 10 years)

### Relay output

Current rating 15A maximum  
Input voltage: 110-250VAC or 24VDC  
Fuse protection Yes. pcb mounted, slow blow, 15A 250VAC.  
Cord: 10 ft, type SJOOW, piggyback plug connection  
AC power: voltage 110-260VAC, cord length 10 ft.  
Cord grip body material: Nylon, gasket: Buna rubber  
Approvals: CE, All components UL listed.

**Screen** 17 x 17 mesh natural polypropylene mesh.

### Check Valve

Material Viton
