

ICE MELTING PELLETS

[®]
MAG
MAG

(Magnesium Chloride)

**Net Weight 50 lbs.
(22.68 Kg.)**

SAFER FOR THE ENVIRONMENT

- Starts Working Immediately
- Melts More Ice at Lower Temperatures
- Leaves NO Residue
- Less Damaging to Concrete
- Safer to Use

The power of new **MAG** pellets Provides *even faster, more effective* ice melting, yet **MAG** pellets are as safe and kind to the environment as **MAG** flakes. Here's why:

- **MAG** pellets are magnesium chloride which melts effectively down to -13°F (-25°C), well below common ice melters.
- **MAG** results in 26 times less concrete spalling than other common ice melters.*
- **MAG** pellets are safer for vegetation, and plants, because its chloride content on a pound to pound basis is lower than competitive products by at least a third.

- **MAG** pellets are less corrosive than other ice melters.

- **MAG** pellets are safer for pets and people because it is less toxic** than even baking soda or common table salt!

- **MAG** pellets are much less irritating to the skin than other ice melters.

MAG is still available in original flakes as well as in new pellets. Both are products of Dead Sea Works, a recipient of an ISO 9002 quality certificate, and a worldwide manufacturer and distributor of chemical products.
