

OCEAN BLUE COLOR

Snow and Ice Melter

New Formulation + New Packaging = New Opportunities!

Give consumers what they want...

- Island Heat starts melting right away
- High visibility ocean blue color
- Resists clumping and spreads easily
- Multi-sized crystals create traction to help prevent slips and falls
- Helps prevent refreezing when properly applied
- Reliable performance
- Helps reduce ice and snow buildup with pre-storm application

Get the competitive pricing you want...

- Vibrant yellow and blue package design gets attention, on the shelf and on the pallet
- Packaging features English / Spanish language
- A consistent supply, packed in 50lb. high-strength, poly bags
- Ingredients: may contain calcium chloride, magnesium chloride, potassium chloride, sodium chloride, urea and calcium magnesium acetate (CMA)
- Professional sales and marketing support

50lb. bag, UPC #8 56858 005014

Directions for use:

Prior to treating the surface with Island Heat Snow and Ice Melter, shovel off any loose snow and ice. Use a scoop, a spreader or protective work gloves to lightly and evenly sprinkle Island Heat Snow and Ice Melter over ice and snow-covered surfaces.

Island Heat Snow and Ice Melter's ocean blue color coating will help prevent excessive application and thawing will begin immediately. To help prevent refreezing, promptly remove water and slush.

From the back of the bag:

Limited Warranty: Manufacturer and seller warrant that the product will perform to your total satisfaction when used as directed under normal use conditions, subject to the following limitations: It is the user's responsibility to dispose of this package and any unused product in accordance with all applicable local, state and federal requirements. The remedy described herein shall be our sole and exclusive remedy. Under no circumstance shall manufacturer or seller be liable for any cost, loss, expenses, damages, special damages arising directly or indirectly, from the use of the product, whether based upon warranty, contract, negligence, or strict liability. Buyer assumes all responsibility for use and safety not in accordance with directions. Because the time, place, rate of application and other conditions of use are beyond seller's control, seller makes no warranty, express or implied, concerning the use, effects or results from the use, handling and storage of this product. The product is sold "as is". This limited warranty is made expressly in lieu of all other warranties, expressed or implied.

Notice: Freeze thaw cycles of ice on concrete are typical in winter conditions and can cause scaling damage to concrete. The use of any ice melting agent can increase the number of freeze thaw cycles to which concrete is subjected and can cause spalling or flaking. Do not use product on concrete that is less than one (1) year old, or that was not properly mixed, finished or cured, or that contains porous concrete. Do not use product on concrete that has exposed aggregate, is pre-cast or that is already stressed or damaged. Use on mortar joints, stone, brick and flagstone is not recommended. Product may be harmful when used excessively or repeatedly applied. Product may contain calcium chloride with hygroscopic (water-attracting) properties. Ice melting agents applied at much greater rates than recommended may interfere with traction and footing. Wipe feet carefully on mats when entering buildings. Do not allow the product to remain on floor coverings. Do not apply product directly to grass, flower beds, trees or other vegetation.

Contents: May contain sodium chloride, calcium chloride, magnesium chloride, potassium chloride, urea and calcium magnesium acetate (CMA).

Storage and Disposal: Store the product in a cool, dry area. Do not store in a location where the hygroscopic (water-attracting) properties of the product could cause damage. Keep container tightly closed. Dispose of unwanted product and container according to federal, state and local environmental regulations.

CAUTION: Keep out of reach of children. Causes eye and skin irritation. Not for food or drug use. Harmful if swallowed. Avoid exposure to eyes, skin and clothing. Do not ingest or inhale.

First Aid

Skin Contact: Flush thoroughly with plenty of water. Seek medical attention if any irritation persists. Remove contaminated clothing and launder separately before reuse.

Eye Contact: Check for and remove contact lenses. Flush eyes with plenty of cold water for at least 15 minutes. Seek immediate medical attention.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek immediate medical attention.

Ingestion (if swallowed): DO NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

CAS Numbers: NaCl 7647-14-5, CaCl₂ 10043-52-4, Urea 57-13-6, MgCl₂ 7786-30-3, KCl 7447-40-7, C₈H₁₂CaMgO₈ 76123-46-1
